Re: MEDICATIONS FOR THE 2026 SPRING TRIP

Dear Parents/Guardians,

If your student going on the spring trip requires special medication, please do the following. Label all medicines with the student's name, how much they take, and when they take their dosage. Then, put the labeled medication in a small plastic bag to give to the chaperones Thursday morning. This must be done for ALL medications, including the over the counter medications of Tylenol, Motrin, etc. As a reminder, students who have Asthma problems are required to bring their inhalers on the trip. Please follow the same labeling instructions for inhalers.

Should you have any further special instructions concerning your child and their medicine or dosage, please let us know Thursday morning when you drop them off.

Thank you,

Mr. Williams
